RE: In the Matter of applications of AT&T Inc. and Deutsche Telekom AG for consent to assign or Transfer Control of licenses and Authorizations (WT Docket No. 11-65).

Dear Chairman Genachowski:

I'm writing to you today to discuss the benefits of the AT&T and T-Mobile merger that you are currently reviewing. I believe the merger will have a positive impact on the overall economy and the workers in our state.

Under the terms of the merger agreement, AT&T has promised to invest an additional \$8 billion in expanding its 4G LTE network. As a result, more than 97 percent of Americans will have access to high-speed wireless broadband (as opposed to 80 percent under the companies' plans without the merger). My district will be one of the newly-covered communities, and I know access to wireless technology will give our businesses the ability to use important online tools that will help them operate, expand and market their products and services.

As a former union leader, I believe it is also worth noting that this merger will be good for the thousands of employees of T-Mobile. For years T-Mobile's German parent company has kept these workers from organizing a union. In contrast, AT&T is home to the largest unionized workforce in the U.S. wireless industry. This merger is expected to create up to 96,000 jobs. Some of those jobs will be for AT&T, as it expands its workforce to help build and operate its larger network. These new employees, and the ones from T-Mobile that will join the AT&T family immediately upon approval of this merger, will all have access to union representation. This means better wages, better health care benefits, and more job security.

For that reason, if no other, I urge you to publicly support this merger.

Sincerely,
